OBJECTIVE

To utilize my technical skills and my experience in software development and compliance to enhance product functionality and drive innovation within a forward-thinking organization.

EDUCATION

Periyar maniammai institute of science and technology vallam Thanjavur

Master of computer Applications
2023-2025
9.16

Periyar maniammai institute of science and technology vallam Thanjavur

Bachelor's of computer Applications
2020-2023
8.0

SKILLS

- React.js
- Node.js
- MySQL
- Python

TOOLS

Known tools MS word, Ms Excel, Jira,postman,
Ms Powerpoint,github,gitlab

PROJECTS

Age and gender recognition system

Main project | Jan 2023-May 2023

- For my undergraduate project.I developed an age and gender recognition system using Python and achieved an accur acy of 90.
- tech stack:python,opencv.

Fish freshness detection using machine learning

Mini project | Aug 2024-Dec 2024

- I completed my postgraduate mini project on fishfreshness detection using machine learning, achieving 95.
- tech stack:python,flask,ML models.

Automated Reporting System for Online Extortion Detection in Digital Messaging Application

Main project | Nov 2024-Feb 2025

- For my Postgraduate project, I developed an Automated Reporting System to detect extortion in messaging apps using NLP.
- It classifies suspicious content and forwards it to the cyber security portal.Authorities can then take timely action.
- The system ensures real-time threat detection.It enhances user safety and supports cybercrime prevention.

EXPERIENCE

HIIQ SOFTWARE SOLUTION

Intern | Nov 2024-Feb 2025

- I have completed an internship where I gained hands-on experience working with Java and MySQL. During this internship, I learned how to develop and manage projects,and currently my project in processes
- Tech Stack: j2EE(java with maven, JSP.Servlet and MySQL5.5

AVIVO AI

Fullstack developer intern | 23 June 2025- 23 Jan 2025

- During my six-month internship at Avivo AI, I worked as a Full Stack Developer, with a major focus on frontend development. I learned and utilized React.js to build interactive and user-friendly interfaces, integrating them with backend APIs for dynamic data handling. I also used Postman for API testing and validation.
- Additionally, I gained hands-on experience in automation testing using Playwright, ensuring application reliability. Towards the end of my internship, I developed a Streamlit-based dashboard using Python for data visualization and analysis.

CERTIFICATIONS

- Participated webinar on scripting language in PMIST
- Participated webinar on postgresQL in PMIST
- Participated webinar on MangoDB in PMIST

VALUE ADDED COURSES

- Core python
- Data analysis using python

SOFT SKILL

- Efficient in Communication
- Supportive worker
- Adaptability
- Time management

DECLARATION

- I here by declare that the above furnished data are true to the best of my knowledge.
